Business Continuity Analyst, RevSpring

Presentation Summary

Today, you cannot really talk very long about business continuity before you get to pandemic preparedness and response. In this presentation, we will not rehash what has been told, we'll review what works, what companies have learned and how to prepare for the next wave of the event. In addition, we will review current trends in business continuity beyond pandemics, including how business continuity can fit quite nicely into an overall enterprise risk management framework.

Biography

Aaron is the business continuity analyst for RevSpring, which is a revenue cycle management company focusing on the financial services and healthcare industries. Prior to RevSpring, Aaron contributed to continuity efforts at Bank of America, Fulton Bank, JPMorganChase and Barclays. He has been a continuity consultant for Protiviti and worked with SunGard's software clients to optimize their continuity programs. He holds a master's degree in economics and math from the University of Memphis and a bachelor's in economics from Grinnell College. He currently is on the Board of the Association of Continuity Professionals in central PA and serves as treasurer of the ISACA chapter in Harrisburg. Aaron maintains a variety of certifications and enjoys puzzles and building Legos, while sampling a variety of red wines away from the office.
