Field Trip to Disaster City and Agility Recovery

All four Texas ACP chapters – North Texas, South Texas, Capital of Texas, and Alamo are sponsoring a combined field trip, all-day October 16, to the premier emergency management training facility in the country known as Disaster City. Located near College Station, Disaster City is a 52-acre training facility used by emergency management teams all across the US. Also located near an Agility Recovery site (formerly Rentsys), will be providing lunch to all registered participants. North Texas chapter ACP is sponsoring transportation for our members and we will need your registration to determine the best transportation vehicle. (Sorry helicopter is not available) Agility will have a specific registration for the lunch portion of the field trip. Don't miss this great opportunity to network with ACP members across Texas while being amazed with the Disaster City, Texas A&M Engineering Extension Service (TEEX) Brayton Fire Training Field, and learn what Agility Recovery has to offer. More communications forthcoming.
